WEB DEVELOPMENT FOR QUEZON CITY PUBLIC SCHOOLS

The students of Quezon City Polytechnic University-Batasan Satellite are undertaking a web development project for those public elementary and secondary schools of Quezon City. Please be informed that the Division of City Schools is supporting this project.

There will be two-three (2-3) students who will go to your school to gather information and data. We request that you facilitate them with their needs for the success of this project. We hope that these web sites will help our students, parents, teachers and schools administrators to have a better access in information technology regarding the school's programs, activities, background and future plans.

Before publishing the web page in the internet it must be first validated and assessed by the school's administrator/school representative. The Information and Communications Technology Section will be the one tasked to connect it to Division of City Schools' server.

Should you need further clarification, please contact the ICT section and look for Ms. Anna Liezl Tek Manarang at telephone number 407-6469 or email addresses tina_narag@yahoo.com or tinanarag@gmail.com.

We look forward to your support.

Very respectfully yours,

Engr. MARC VOLTAIRE A. PADILLA, AE
Chairperson, BSIT Program
Quezon City Polytechnic University
