## THE MAX PULSE DIGITAL ANALYZER

*Modern, Risk-free & Non-Invasive Angiogram Device*

Our **PhytoMax Pulse Monitor** (compact device) and **Phyto SA 3000P** are both one-of-a-kind, state-of-the-art machines that **can save lives** by providing within 3 minutes an early detection of the world's top and silent killer diseases— **cardio-vascular diseases** (diseases of the heart and blood vessels).

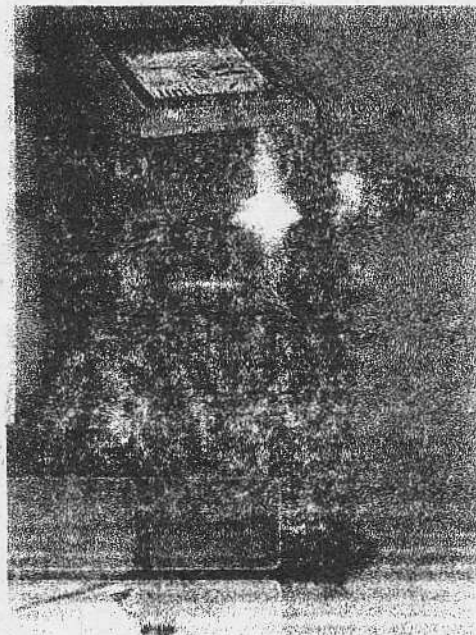

Both are ANS Analyzer devices that provide tools for a non-invasive, painless assessment of the cardio-vascular system's health condition focused on measuring arterial stiffness, autonomic nervous system function and autonomic balance relating to stress. It applies the core technology of HRV (Heart Rate Variability) and APG (Accelerated Plethysmography) which had been featured in 10,000 published scientific studies in the western world, describing symptoms of cardio-vascular disorder, psychiatric disorder, peripheral circulation disorder, somatoform disorder, and chronic stress.

Both monitors are now available and exclusively distributed in the Philippines by Phyto Pharma, Inc. These medical machines are approved by USFDA, SFDA (China) and CE (European Union) and are now available through our registered distributors who can be contacted for diagnostic tests in your locality or offices.

These models had also been tested and demonstrated to doctors and members of the Private Hospitals Association of the Philippines (PHAP) during the Association's 32nd National Convention and Exhibition held on November 21-22, 2011 at the Grand Ballroom, Century Park Hotel, Manila.

### Main Features:

- Automatic Diagnosis with DDR report
- Simple operation
- Non-invasive and painless test
- Quick result display
- Systematic patient data management
- 2-main references for both westerner and easterner

Schools Division Superintendent

July 23, 2012

Dr. Corazon C. Rubio  
Superintendent  
Quezon City Schools Division  
Dept. of Education  
SM North EDSA, Quezon City  
MetroManila 2700

Dear SIR/MADAM:

This is to request your very honorable office for a permit to disseminate information materials for a "Heart Watch" caravan/clinic for your teachers and parents. We intend to serve your people for a **special heart and cardiovascular check-up** using the latest technology **angioqram** yet invented at a **very minimal fee of P300 each** so that they may be well informed and/or forewarned of their **heart condition/disease**, if any, as well as counsel them on how to have a healthy heart and hence **avoid the risk of stroke, heart and cardiovascular diseases** because it is the **number one silent killer** in the world today according to global and local statistics. This **heart diagnostic test** is also an opportunity for your constituents to save and henceforth avoid the expensive 2D echo (P 5,000 fee), electrocardiogram (or ECG costing P 600), and/or the most expensive, painful and invasive conventional angioqram costing from P 85,000 to P 150,000.

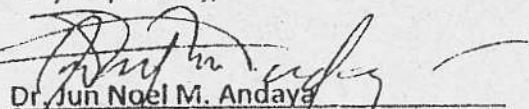

With this endeavor, we will be using our top-of-the-line, most advanced, painless photoelectronic plethysmograph instrument known in Europe and U.S.A. today as "Max Pulse" monitor that records

- Percentage blockages of the arteries
- Heart rate variability
- Elasticity and aging of the blood vessels
- Efficiency of blood circulation
- Cellular nutrition
- Stress level or resistance

and other cardiovascular signs that would aid to alert risk of stroke, heart attack and cardiovascular disease. Each individual is served a very brief 5-minute test yielding a printed test report from the device about the over-all heart condition besides a free medical counsel. This gadget is portable so that we can bring it to your place to conduct the tests for your people. We could arrange a schedule for them if at least about 50 persons are willing to have the test. It is our desire that this activity will serve not only as our endeavor and a working relationship to work together with you for the betterment of our society in terms of health.

We are hoping that you would grant this humble request very soon so that we may be able to arrange together a schedule suited for your constituents. Please don't hesitate to contact us for any enquiry. May the Lord God bless you!

Very respectfully,

Dr. Jun Noel M. Andaya  
PhytoPharma Wellness Representative
