MEMORANDUM TO:

Asst. Schools Division Superintendents
Division/District Supervisors
Elementary/Secondary School Principals
Head Teachers and Teachers In-Charge
All Section Chiefs

S.A.F.E. PROGRAM FOR EDUCATORS
(Subtle Attacks Against the Family Explained)

For the information and guidance of all concerned, attached is a letter from Dr. Severina M. Villegas, Mentoring Consultant, University of Asia and the Pacific, Antipolo City, re: "S.A.F.E. Program for Educators (Subtle Attacks against the Family Explained)", which will be held on September 1-2, September 29-30 and December 1-2, 2012 at the Saint Michael Retreat House, San Jose St., Antipolo City.

Attached is the schedule and list of participants to the said Seminar.

Immediate and wide dissemination of this Memorandum to all concerned is desired.

CORAZON C. RUBIO, CESO VI
Schools Division Superintendent

Incl.: As stated

26 July 2012

Dr. Corazon C. Rubio

Superintendent

DepEd Div. of Quezon City

San Francisco Compound

Misamis Street

Bago Bantay, Quezon City

Dearest Dr. Rubio,

Thank you so much for the time given us last July 17 at DepEd Central Office. It was a delight to share with you about our concerns for the formation of the youth. We are sending you this letter to officially invite you and your key people to participate in a 2-day seminar in St. Michael Retreat House located in Antipolo City.

The St. Michael Retreat House is committed to helping educators in the formation and proper upbringing of our students. Our experience with young people has convinced us that in order to help educators and students alike, the family has to be the first area of action where we should endeavor to defend the values and maintain the faith. Unfortunately, it is the family itself which is under grave threat in our present world.

We have adopted a program called **SAFE** Program for educators (Subtle Attacks vs. the Family Explained) which discusses eight basic issues that are the core of these dangers. The Special Program for Educators (**SPE**) discusses the real population trend in the world, which is in heavy decline, the meaning of human sexuality, the beliefs of the "New Age" which have influenced the attitudes and values of young people and adults, how sex education weakens parental authority, the effects of pornography and violent entertainment, reproductive health in relation to the culture of life, building a strong partnership between the home and the school, and God's plan for marriage and the family.

We would like to invite your select your principals, guidance counselors, subject heads, home-room advisers, master teachers who play a crucial role in the integral education of the students and concretely in the delicate task in imparting to the students the right notion of Sex Education. You can freely invite LGU members in the education committee and dedicated parent leaders. The parent and community leaders can reinforce your schools efforts in addressing constructively the attacks against the family.

The seminar can be an intervention which will guarantee that the schools, home, and the community will be on the same page, so to speak, in relation to the formation of the students.

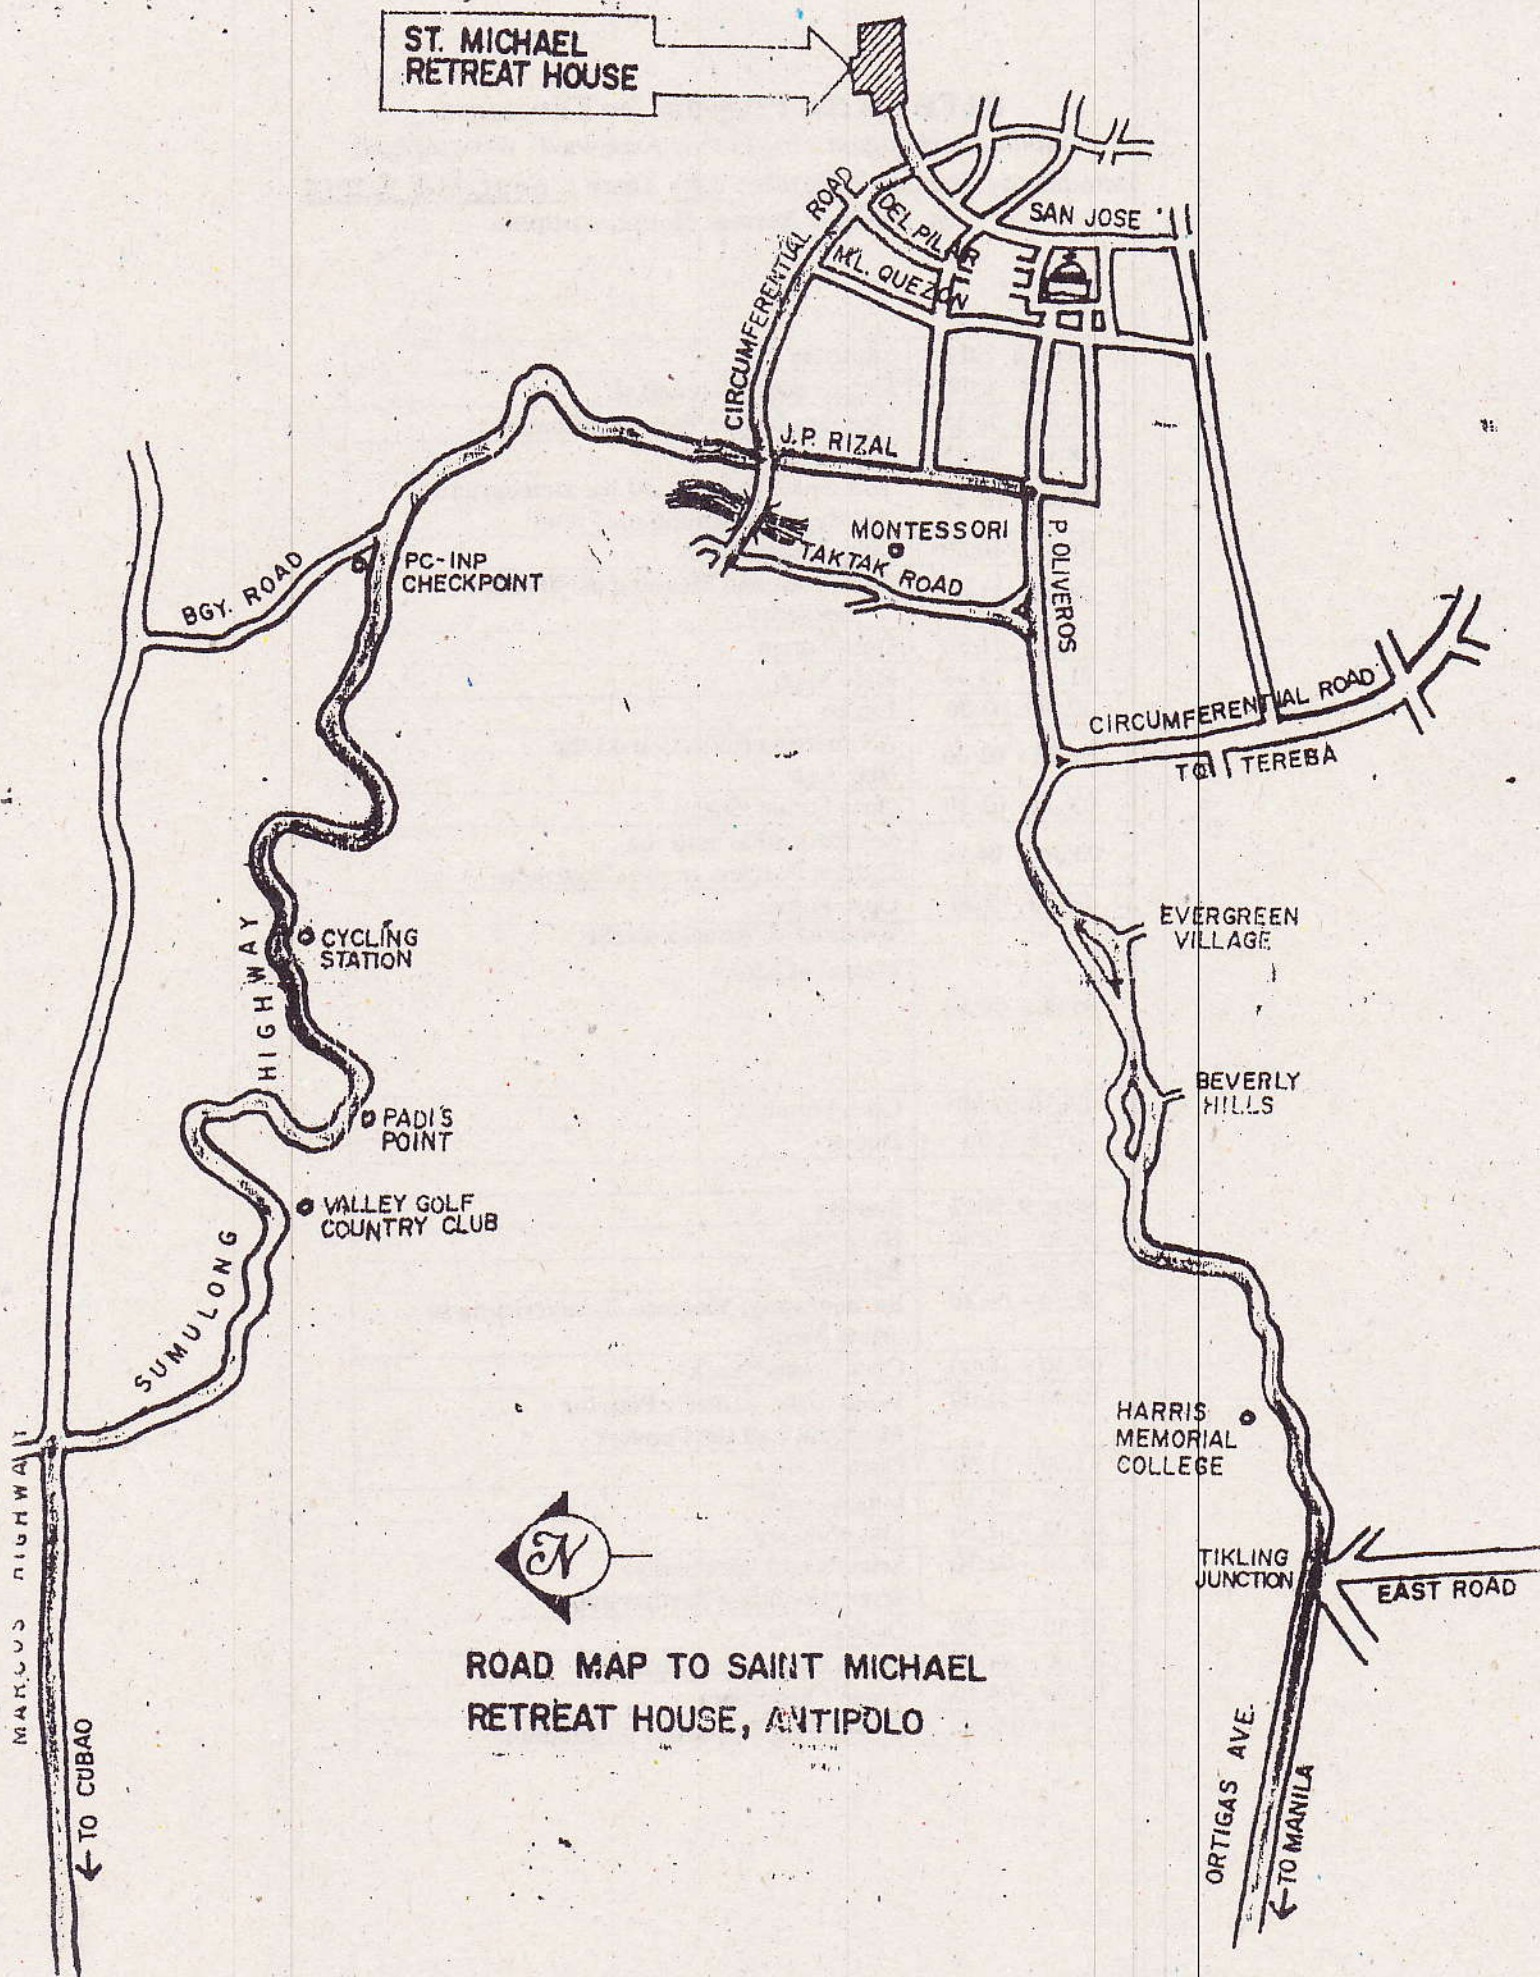

We are happy to inform you about our decision to offer to your Division three dates for the three batches that can participate in the Program. The proposed dates are on **Sept.1-2, Sept 29-30, December 1-2, 2012.** We can accommodate 100 participants/ seminar. We shall offer grants to your participants which cover board and lodging, hand-outs and certificate of participation. Your Division could take care of the transportation of the participants. Should there be any further queries, please contact Ms. Veron Pineda at Michael Retreat House or at her mobile #09178587202.

We are enclosing some salient materials for your perusal.

Thank you so much for your collaboration. Warmest regards.

Sincerely yours,

Dr. Severina M. Villegas
Mentoring Consultant
University of Asia and the Pacific

The future of humanity passes by way of the family. It is therefore indispensable and urgent that every person of good will should endeavor to save and foster the values and requirements of the family. ...

Loving the family means identifying the dangers and the evils that menace it in order to overcome them.

Familiaris Consortio

SPE

S.A.F.E. Program for Educators
(Subtle Attacks Against the Family Explained)
www.safe.ph

Two modules discuss fundamental issues that require special attention and effective response from educators by enabling them to recognize the hidden hazards in the current moral climate and help them formulate an action plan that will help young people counteract the attacks against their family, their dignity and their faith

Many families today suffer. In spite of their sincere efforts to love and care for their children, parents find it more difficult each day to raise their family. Is the so-called generation gap to blame? Are the television, the internet and the mass media as a whole beyond control, and so are drugs, violence in schools and demonic cults?

Parents and educators generally know that environmental factors affect children negatively. But what exactly are these factors? We need to pinpoint them, if we are to protect the family. A vague idea of these attacks against the family will not suffice to correct the family's deteriorating situation today.

Module I

Towards a Culture of Life: Demography and the Real Population Trend

What does the study of world populations reveal about the fallacy of birth control? How does the natural family keep the social and economic balance? How do attempts to re-engineer marriage and introduce unnatural family patterns affect development?

The Truth and Meaning of Human Sexuality: The Importance of Catechesis

Sexuality in its proper perspective; the body & its purpose; the biological and non-biological aspects of sexuality; the twin aspects of biological sexuality and the consequences of separating these two; non-biological or relational sexuality as a lasting expression of love; man & woman as complements and endowed with equal personal dignity; conjugal love as the merger of the human and the divine; sexuality & the family; marriage and same-sex unions; love as the fundamental vocation of every person; chastity, abstinence and fidelity as an expression of love.

A Christian Reflection on the New Age

Is there a "New Age"? How can New Age spirituality damage our relationship with God and lead us away from Christ? How are New Age practices incompatible with Christian faith?

Sex Education and Hidden Dangers in the Classroom

The proper approach to education based on family values; the sex education curriculum patterned after utilitarian and materialistic values; how sex-ed is designed to weaken parental authority and guidance; biological sex education in schools that fosters promiscuity through moral and sexual desensitization from the earliest levels; sex education & the development of a contraceptive mentality; anti-family attitudes; the real motives behind sex-ed; International Planned Parenthood Federation.

Module II

Bioethics & Attacks on the Gospel of Life

Responsible parenthood; the critical difference in defining the beginning of life; the global agenda for "reproductive health" as an anti-life campaign; the drive to make abortion a reproductive right; effects of abortion on the woman's physical and psychological health; contraceptive methods and abortifacients; cancer & infection risks of abortion & contraception; 15% condom failure leading to the spread of AIDS and venereal diseases; contraception and abortion as a consequence of promiscuity, sex outside of marriage, hedonistic lifestyles; natural methods near 100% effective; abstinence as an expression of love and marital growth.

Pornography, Violence & Advertising in Mass Media

The different forms of mass media and their proper function in society; the extent and scope of media influence today; the rise of entertainment in media and the battle for profits; the use of sex and sexual imagery to capture the audience; the phenomenon of media as replacement to the authority in society and in the home; the hidden messages in media and advertisements; the values promoted in media and ads; the effects of pornography on the individual, on the family, and in the community; the effects of violence in entertainment.

What is the Father's Plan for Marriage and the Family?

The nature of marriage; fidelity, permanence and openness to life as the lasting foundations of marriage; the spouses as ministers of the sacrament and their vocation to conjugal love; the importance of preparation for marriage; the need for on-going formation of spouses; the redemption of man being coured through the family; the family as the domestic church; the family as the organizational model of the Church; marriage and celibacy in the service of the Church; the sincere "language" of marital intimacy in God's plan.

Schools and the Family: Strengthening a Partnership

How can schools and educators respond to the urgent need of young people for moral guidance? What can the schools do in order to educate young people on the attacks to their families and counteract the almost daily assault? How can educators and parents work as partners in the formation of the youth?

S.A.F.E. Program for Educators

AP - 50.
